

# INTEGRATION SERVICES

## ABOUT INTEGROVE.

Integrove specializes in bespoke digital solutions. You can depend on our years of experience across multiple industries and geographies to deliver scalable, world-class digital solutions.

We work closely with all our clients to determine their individual technology needs. We do not believe in a “one-size fits all”.

**That is why our customisable solutions are ideal for the unique problems you might face.**

You can rely on our skilful and professional team, spanning multiple technology disciplines, to successfully deliver end-to-end solutions in an integrated and agile manner.

## CASE STUDY.

With hundreds of applications available for your company to use, it is important to not only consider how they will fit with your business strategy, but also how they will fit in with the rest of the applications already in use.

As applications move to the cloud, integration becomes crucial. Integration challenges risk stalling key business initiatives, and your company cannot afford to fall behind in today's competitive market.

**Read our full Integration Case Study here!**

# INTEGRATION.

We work with large multi-national clients to enable the integration of data, applications and processes within their complex internal and external landscapes. From integration strategy to integration solution development and support, we are able to assist you across the full spectrum of your integration capability.

We offer:

- Data Integration
- API Management
- Centralised Monitoring
- Event Integration
- Event Notifications
- Continuous Support
- Documenting and Implementing Integration Best Practices
- Improved Data Collection and Dashboards
- Hybrid On-site/Cloud Solutions

**Streamline & Automate  
Your Business Processes  
with Integrove!**

## OUR STRATEGY.

**Always keep the big picture in mind**

Any integration journey should start with Integration Strategy. It is important to plan out how the integration will take place, and to answer the following questions:

- Why are you doing integration?
- What are your current integration pain points?
- What are the benefits of Integration for your company?

Each company is unique, which is why our integration solutions are tailored specifically to your company. We don't believe in a "one size fits all" approach. Our strategy service will aim to help you answer the above-mentioned questions. After we've determined what would suit your company best, we will match you with the best tools for your needs.

# MANAGED SERVICES.

Let us help you reimagine your business with the latest digital technologies to get ahead of the curve and move your business forward.
